DETAILED ACTION

Claim Objections

1. Applicant is advised that should claim 5 be found allowable, claim 6 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 112

2. Claims 5-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 5, lines 1-3 and claim 6, lines 5 and 6, “each of the clamp mechanism” and “for being mount on the rod” are each grammatically unclear. Also, “the clamp mechanism” is unclear insofar as a plurality of clamp mechanisms were previously defined in the claims.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by the admitted prior art of fig. 5. The admitted prior art evidences two stretch links 74, 75, two retainers 73 connected to the insides of the tubes and two clamp mechanisms 721. The two

retainers 73 are adapted to clamp a frame with a connection sphere between the two retainers as claimed. With respect to claims 5 and 6, no distinction is seen between the claimed clamp mechanisms and those shown in fig. 5.

Allowable Subject Matter

5. Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 7-9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The remaining cited prior art is illustrative of the general state of the art.
